Mr. Luis Tovar
Mulhern MHE
representing Cottonwood Water and Sanitation District
188 Inverness Drive West, Suite 140
Englewood, CO 80112

Re: Arapahoe Well D-1RR – Work Hours Variance Request

Dear Mr. Tovar-

The Town has reviewed your request for work outside of the Town's permitted hours. As outlined in your request, because well development requires continuous operations, the Town has approved your request for 24-hour work for the requested period of 33 days. This approval has the following conditions:

- All surrounding residents shall be contacted with specific details and timeframes of this work in advance of construction.
- Noise and light mitigation shall be in place at all times during this work.
- The above items shall be coordinated with the Cottonwood Metro District.

It shall be the responsibility of Cottonwood Water and Sanitation and its representatives to be proactive in addressing concerns of the surrounding residents and the Metro District to ensure that no conflicts arise during this work.

Please feel free to contact me should you have any questions.

Sincerely,

Tom Williams, P.E., Director of Public Works/Engineering
